V2.4 FEBRUARY 2015

Editorial

We are on a countdown: in less than a year, Anhembi Parque, one of the largest event centers in Latin America, will open its doors to host the WorldSkills Competition for the first time.

Preparations for the event are in full swing and the Competition Organizer in Brazil is working diligently and in full co-operation with the WorldSkills International team to make this the best and largest Competition of all times.

The 43rd WorldSkills Competition already holds the record for all Competitions: approximately 1,200 Competitors from over 60 countries and regions will test their abilities in 49 different skills.

With the support of partners, sponsors and a touch of Brazilian creativity, we want to surprise and provide a unique experience for each participant during the Competition, ceremonies and other events.

The Conference Program promises novelties which will make the gathering of industrial, governmental and education expert leaders more dynamic and attractive.

Always seeking to integrate solutions for social and economic development through the promotion of education, current issues will be presented and discussed by world experts in education, innovation and technology.

We expect to receive over 200,000 visitors. We will be waiting for you in São Paulo for another successful edition.

Take part in the largest vocational education Competition in the world!
